Re: Final Six Month Report for the North Eden Pumped Storage
Hydroelectric Project, FERC Project # 13249

Dear Ms. Bose,

This letter is submitted in compliance to Article 4 of the preliminary permit for the above referenced project. The following constitutes the final Six Month Progress Report.

The Preliminary Permit for North Eden Pumped Storage Hydroelectric Project was issued by the FERC on December 8, 2008 to North Eden Hydro, LLC. During the three years of the permit, the Applicant studied the feasibility of the project and investigated potential funding sources for development.

The Applicant has determined the project is unfeasible at this time and thanks the FERC for their diligence and time. The Applicant understands that the permit expires December 1, 2011 and will not be pursuing the project any further.

If you have any questions or need additional information feel free to contact me elisabeth.evans@symbioticsenergy.com or call (435) 752-2580.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Elisabeth Evans'.
